Sale total: £43,460

"an eclectic mix, an electric audience..."

An enormous advertising campaign lured in a goodly number of new faces for this extra auction of toilets, typewriters, 'tills, sewing machines.... along with a myriad of more familiar BBR fare.

The bronzes (consigned as 2 separate lots) made £1,710 total - about right given one damaged? After such initial excitement in the room, & on the telephone, the sale itself kicked off.

The typewriters were something of an eye opener - and there's many more to follow (*date to be affixed next year*) this effectively a barometer to judge how they may perform. Few rarely come onto the market in such this and it fell upon lot 43, the Salter, to outperform all others @ £710.

None of the sewing machines equalled this in terms of high prices - but they were met another 'new' exuberant market for us.... so next years sale will be another conglomerate/ eclectic mix - guaranteed (some real surprises already). The cast postboxes were avidly sought after - £710 for the Victorian example,

Bottles were not overly represented in this spread. Not intentional we simply ran out of time, the catalogue just filled rapidly. The fabulously iridescent Daffy was the highest flier @ £1,890. he super rare green glass Durham Vallets Patent (one of Garths last purchases!) reached £830. The heavily repaired (once 3 parts) half Pratt plaque sold for £330, its maximum worth? The two best coloured bears lids were Polar Bears (KM18A) £320, Bears Attacked By Dogs (KM2A) £310, the small amber teakettle was chased to £590 (more next sale).

Towards the end the top two toilets made £470 & £590 and the wonderful foliate emblazoned sink was contested to £555, and right at the end the Barlow exhibition jug managed £1,420, despite the rim repair.

Overall a good day was had by everyone, and plans are afoot for a 'bumper' 2015 - and MORE!

NB: prices above include add ons.
